Dear [REDACTED] SV-1,

Just a brief note to acknowledge the receipt of your narrative of your experiences with Father Michael Salamone. I am sure that, although it was difficult to bring those events to memory, there was a healing which took place by putting them down on paper.

I wish to assure you that the information which you provided was able to be made available to the evaluators, as the process was taking place.

I was particularly encouraged by your words about your ability to feel compassion. Openly sharing that says a lot about you and your outlook, as well as about your awareness of the presence of God in your life and your Christian commitment. I pray that you will continue to respond to the promptings of the Holy Spirit of God in your life.

Assuring you of a special remembrance in prayer, I remain

Sincerely yours in Christ,

Monsignor Otto L. Garcia
Chancellor
